

## Likely Outcomes of Thrive's Proposed Policies: Sprawl; Displacement; Rent Increases; Loss of Farms.

The map below depicts our existing General Plan (1993 Update) with some of Thrive's predicted outcomes. The "base map" with the color coding (see Key in lower left), is from the [General Plan Refinement 1993](#), Figure 7, "Wedges and Corridors Geographic Components." The "likely outcomes" are the result of a rough-cut citizen planning analysis. Locations are approximate and only meant to provide examples; they are not exhaustive of the locations and outcomes predicted from Thrive's proposed policies.
